

Fabric Stain Blocker

Product Data Sheet

SUPERIOR STAIN PROTECTION AND LIQUID REPELLENT FOR CARPET AND UPHOLSTERY

BENEFITS:

- Doesn't change the look or feel of carpet and upholstery
- Limits reappearance of spots and stains
- Apply to new or freshly cleaned carpets and upholstery, wet or dry
- Fabrics and carpet remain soft and breathable
- Easy application – Just mist and done
- Zero VOC formula

DESCRIPTION: Fabric Stain Blocker is a one-step hydrophobic fluoropolymer. It will repel water and stains on most carpets and upholstery. This advanced technology treatment is designed to keep items stain free and dry. It is an invisible drying formula that allows fabrics to breathe, while continually repelling water and stains from the surface. Fabric Stain blocker performs without changing the look or feel of carpet or upholstery.

USAGE: Fabric Stain Blocker is safe on most Fabric surfaces but always test in an inconspicuous area to determine suitability.

PRECAUTIONS: Do not take internally. Avoid contact with eyes. May cause minor skin irritation with prolonged contact. Protect adjacent surfaces from overspray. If overspray occurs, simply wipe the adjacent surface dry with a clean white cloth.

APPLICATION: **Read entire label before using. Use only as directed.** May be applied to dry or wet surfaces of new or clean Fabric fabric. **Before applying, ensure that the area to be treated is clean and stain free. Shake product well before use.** Spray a small test area in an inconspicuous area to determine desired effect. Hold bottle approximately 8" from surface to be treated and mists the entire surface, ensuring not to puddle or over apply. For best results, wait one hour and reapply. Areas that become saturated or puddled during application should be blotted with a clean white cloth. Treatment is effective with 2 to 6 hours; fully cured in 24 hours. Keep traffic, including children and pets,

off carpet while drying. Reapply Fabric Stain Blocker every time carpets or upholstery are steam cleaned or every six months, whichever comes first. Durability of protection varies with wear. Protect adjacent surfaces from overspray during application. If overspray occurs, wipe up immediately with a clean, white, absorbent cloth. Do not store at temperatures above 120 F.

COVERAGE: 45-60 square feet per 22 oz bottle, depending on absorption

AVAILABILITY: Fabric Stain Blocker is available in 22 oz. ready to use spray bottle.

Appearance
Physical state : liquid
Form : liquid
Color : clear, opaque, yellowish
Odor : No applicable data available.
Odor threshold : No applicable data available.
pH : 4 - 6
Melting point/range : No applicable data available.
Boiling point/boiling range: 100 °C (212 °F) at 760 mm Hg
Flash point : does not flash
Evaporation rate : No applicable data available.
Flammability (solid, gas) : No applicable data available.
Upper explosion limit : No applicable data available.
Lower explosion limit : No applicable data available.
Vapour Pressure : No applicable data available.
Vapor density : No applicable data available.
Specific gravity : 1.1
