

Grout Colorant

Product Data Sheet

PROFESSIONAL GRADE GROUT COLORANT

BENEFITS:

- Restores old or blotchy grout color
- Changes color of grout if desired
- Fills cracks in grout
- Use on virtually any grout
- Interior and exterior applications

DESCRIPTION: VanHearron's Grout Colorant is a professional grade grout coloring. It can be used on virtually any grout to restore the color, change the color, fill cracks and eliminate "washed out" or blotchy grout color.

USAGE: Grout Colorant can be used on sanded and unsanded cement grout, hydraulic cement grout, epoxy grout, acrylic grout and urethane grout.

PREPARATION: The substrate should be clean, dry and free of dust, dirt, oil, grease, paint, curing agents, concrete sealers, loosely bonded toppings, loose particles, and any other substance that may prevent or reduce adhesion. Clean the surface using VanHearron's Mighty Indigo. Follow all label instructions for proper use of Mighty Indigo.

COVERAGE: Covers up to 2,800 lineal feet of grout (approximately 560 square feet of average grout line).

Read entire label before using. Use only as directed.

APPLICATION: Shake well before use. Work in small sections by applying a bead of Grout Colorant along the grout joint. Using the provided nib tip or brush tip spread the product evenly along the grout joint. While product is still wet remove and excess Grout Colorant from the tile with a moist towel or sponge. In 30-60 minutes, the product should be dry to the touch. At this point clean the tile with a damp towel or sponge to eliminate any haze. Extra applications may be needed when changing grout color from light to dark or vice versa. Do not apply thick coats. Two thin coats are recommended over one thick coat.

CURING: Cure time depends on humidity, temperature, and the hardness of the grout. A second coat can be applied after about 30 minutes. In 3-4 hours, light foot traffic is permitted. Keep the grout dry and avoid scrubbing for 7-10 days.

LONGEVITY: Expected wear is up to 15 years. Heavy traffic areas can require touch-ups to maintain color and protection.

STORAGE: Be sure to store in the original container and close completely after each use. Store in a dry, ventilated area. Avoid high or freezing temperatures. **Do not dilute.**

WARNING: May be harmful if swallowed. It is good practice to always wear protective clothing, gloves, and eye protection when using cleaning solutions. May irritate eyes and skin. If product gets in eyes, flush with water for at least 15 minutes. If product gets on skin, wash with soap and water. If irritation persists, seek medical attention. If swallowed, DO NOT induce vomiting. Immediately seek medical attention. **Warning:** This product contains chemicals known to the State of California to cause cancer, birth defects, or reproductive harm.

APPEARANCE: Pigmented liquid.
ODOR: Ammonia like
pH: (Typical) 8.95
SPECIFIC GRAVITY (H₂O = 1): 1.01
BOILING POINT, 760 mm Hg: No data available
PERCENT VOLATILE BY WEIGHT: 0 %
PERCENT VOLATILE BY VOLUME: 0 %
VAPOR PRESSURE, at 20 deg. C: Not Applicable
LIQUID DENSITY : 1.35g/cc
SOLUBILITY IN WATER, by wt.: Unknown
VISCOSITY: <100 cps
PHYSICAL STATE: Liquid
EVAPORATION RATE (Butyl Acetate =1): Similar to water
PERCENT VOLATILE BY VOLUME: Not Determined
VOC CONTENT BY WEIGHT: 0 g/l
