

Gloss Finish Hardwood Polish

Product Data Sheet

READY TO USE GLOSS FINISH HARDWOOD FLOOR POLISH

BENEFITS:

- Powerful water based formula
- For use on all previously sealed hardwood floors
- No sanding required
- Polishes floor while it fills in micro-scratches
- Non-toxic, has no harsh odors

DESCRIPTION: VanHearron's Gloss Finish Hardwood Polish is a high performance waterborne polyurethane polish formulated to seal, protect, and restore hardwood floors.

ADVANTAGES: Gloss Finish Hardwood Polish *bonds physically and chemically to the original floor finish*, filling in dents and scratches, creating a durable and lasting shine.

LIMITATIONS: Do not use on floors that have been waxed or oiled, as those finishes have an adverse effect on the surface adhesion of the polish. Do not use on unfinished or unsealed wood floors.

USES: Gloss Finish Hardwood Polish is formulated to safely polish engineered and natural hardwood floors. Most wood floors are coated with either a penetrating oil or a surface finish, such as polyurethane or varnish. Gloss Finish Hardwood Polish is *formulated to bond to the original polyurethane or varnish*.

PRECAUTIONS: Before polishing wood with any product, it's a good idea to test the surface first with plain water in a hidden area. Discoloration or dulling indicates that the wood may be waxed or needs refinishing. As with all floor polish products, do not use on unfinished, unsealed, or waxed wood surfaces as discoloration or an uneven finish may occur.

PREPARATION: *Before applying Gloss Finish Hardwood Polish, it is highly recommended that preliminary test be carried out in a small inconspicuous area to determine ease of application and desired results.* It is good practice to always wear protective clothing, gloves and eye protection when applying sealers.

Remove all loose dirt and grit from floor by sweeping or vacuuming, as well as any stuck on debris (gum, food, etc.). Thoroughly clean floor with VanHearron's Hardwood Cleaner,

as directed on the label. Allow to dry completely. Apply Gloss Finish Hardwood Polish at normal room temperature, 65 F to 95 F.

APPLICATION: **Read entire label before using. Use only as directed. Shake vigorously.** Pour a wavy line, approximately 4" long, on a small section of the floor. Spread the product within the section using a microfiber applicator pad in the natural direction of the wood grain. Repeat this process section by section until the entire floor is completed. While light foot traffic is fine after 2 hours, heavy traffic and placement of rugs or furniture should be avoided for 12 to 14 hours.

CARE AND MAINTENANCE: Sweep or vacuum and clean floor on a regular basis with VanHearron's Hardwood Cleaner, as instructed on label. When the floor begins to exhibit signs of wear or if the sheen begins to fade, clean and apply a new layer of Gloss Finish Hardwood Polish.

AVAILABILITY: Gloss Finish Hardwood Polish is available in 32 oz. bottle.

APPEARANCE: Slightly opaque liquid.
ODOR: Acrylate
pH:(Typical) 7.5-9.0
SPECIFIC GRAVITY (H₂O = 1): 1.01
BOILING POINT, 760 mm Hg: 205 F, 96 C
PERCENT VOLATILE BY WEIGHT: < 45
PERCENT VOLATILE BY VOLUME:< 45 %
LIQUID DENSITY : 1.02 g/cc
VAPOR PRESSURE, at 20 deg. C:18 Torr
SOLUBILITY IN WATER, by wt.: Dispersible
VISCOSITY: Similar to Water
PHYSICAL STATE: Liquid
EVAPORATION RATE (Butyl Acetate =1): < 1.0

VanHearron's state-of-the-art protective treatments have developed a reputation among architects and design professionals as the premier solution for construction chemicals. VanHearron, Inc. is dedicated to solving the destructive influence water intrusion and other elements have on tile and natural stones.
